Building on the success of its 2025 Sarawak Budget Conference (2025SBC) and 2026 Sarawak Budget Conference (2026SBC) editions, the Sarawak Budget & Economic Conference 2027 (SBEC2027) continues to stand as Malaysia's first and only regional-level budget conference. It serves as a strategic platform connecting the Sarawak State Budget with the Malaysia Budget, enabling stronger alignment between national fiscal direction and Sarawak's development priorities.

The conference brings together policymakers, government leaders, businesses, investors, industry players, professional bodies, academia and key stakeholders for meaningful public–private dialogue on fiscal planning, sustainable development and economic transformation. It provides insights into how national policies, allocations and reforms translate into opportunities, implications and growth prospects for Sarawak.

Positioned as a premier strategic forum, SBEC2027 explores how Sarawak can leverage national initiatives while advancing its long-term agenda beyond 2030. With the introduction of an exhibition component, the conference also enhances sectoral engagement, visibility and strategic partnerships across government, academia and industry.

Discussion Area

Day 1 — Strengthening Sarawak's Economic Foundations for a Future Beyond 2030

The conference will explore Sarawak's long-term development priorities, including infrastructure advancement, digital transformation, sustainability, investment readiness, fiscal resilience and inclusive economic growth. The discussion will also extend to the wider vision of Borneo prosperity, highlighting the collective potential of Sarawak, Sabah, Kalimantan and Brunei in strengthening regional connectivity, economic cooperation and shared prosperity across Borneo.

Day 2 — Navigating Global Uncertainty & Driving Competitiveness

Will address the realities of an increasingly complex global environment, including economic volatility, geopolitical shifts, technological disruption, climate-related pressures and evolving business expectations. Through high-level insights, expert sharing, strategic dialogue, networking and exhibition engagement, the conference aims to equip participants with the perspectives, knowledge and connections needed to make informed decisions, strengthen competitiveness and contribute meaningfully to national and global sustainable and future-ready development.
